

Hello from Oulu, Finland!

How are you doing? We have returned back to the daily routines since the HOPE congress in Amsterdam, and are now eager to start building a new Comenius project. We are also prepared to be the coordinator school if necessary.

We have worked on some ideas, and have been planning a theme on literature heritage - concentrating on the national stories (either children's stories or national epics) of each partner country. Along this would go on themes on reading and communication.

Since the deadline for the application is coming quite soon, we would like to know as soon as possible whether you are interested in this idea, so please let us know by the middle of November!

Have a nice autumn!

Best regards,
Mirka Manninen and Merja Laakkonen and the rest of our staff
